Company Profile

TOYO NASIC FLOAT GLASS

For over four decades, Tariq Glass Industries Ltd. has been the premier glass manufacturer in Pakistan. In addition to being the market leaders in Pakistan, Tariq Glass Industries Ltd's brands **Toyo Nasic**, **Omroc**, **Nova, Rockware** and **Toyo Nasic Float Glass (formerly Tariq Float Glass)** are exported across the world.

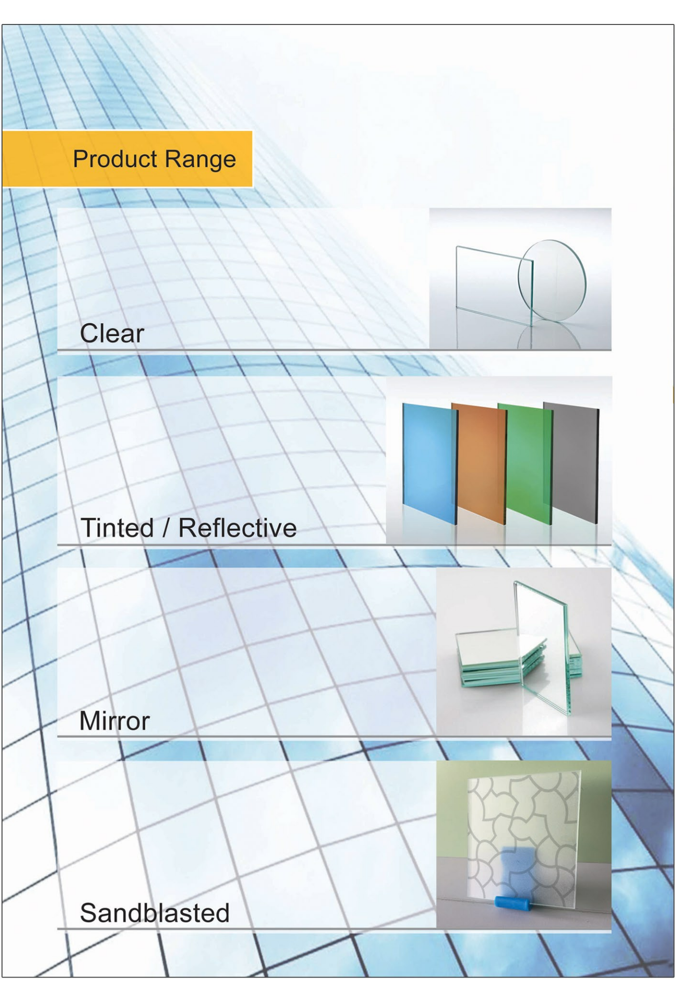
With a production capacity of almost 400 tons per day and using state of the art technology, Tariq Glass Industries Ltd. produces its tableware products on single and double gob press machines as well as H-28 (press & blow) and stretch machines. Onsite mould workshop, all weather warehousing, international standard packaging, advanced laboratory and Tecno 5 decorating machines are just a few examples of the facilities that Tariq Glass Industries offers to its valued customers.

In 2013, Tariq Glass Industries Ltd. launched its latest venture, Toyo Nasic Float Glass. An ultra-modern plant having a production capacity of 550 tons per day, Toyo Nasic Float Glass, quickly established brand recognition not only in Pakistan, but in the international markets as well.

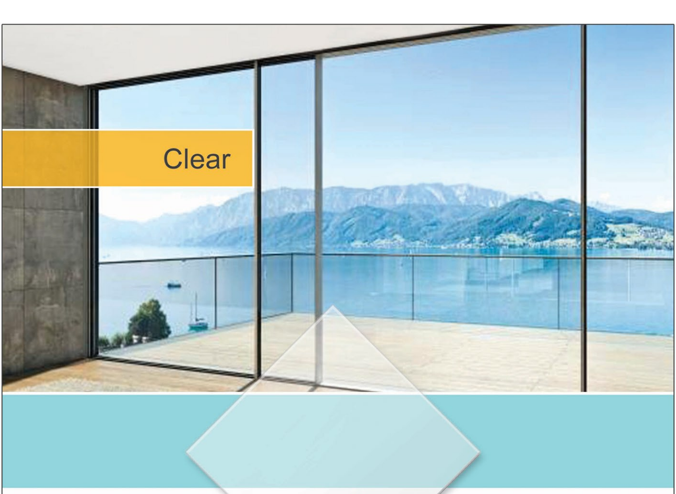
In 2021, Tariq Glass Industries Limited started its second production line for construction glass in Pakistan with a capacity of 500 tons per day. This increase in production brought Toyo Nasic Float Glass total construction glass capacity to 1,050 tons per day, enabling the company to cater to the rising demand of glass in both domestic as well as export markets. This facility is capable of producing clear float glass ranging from 2mm to 13mm as well as 5mm tinted and reflective glass through an online CVD coating machine, along with sandblasted glass and aluminum coated mirrors.

Innovation, quality and reliability are the cornerstones of Tariq Glass Industries Ltd. Its vast product offering of tableware and float glass are designed to meet and exceed the expectations of the customers.

Product Range



Clear



Our Clear glass is ideal to fulfill the high visibility, shine and clarity requirement for windows, display cases, appliances, partitions, shelves, furniture tabletops, skylights, picture frames, automobiles, high rise buildings and many other applications.

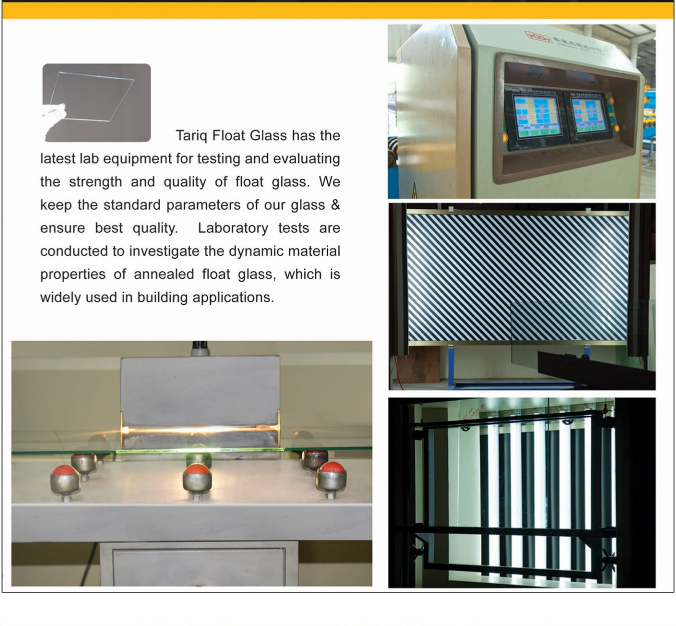
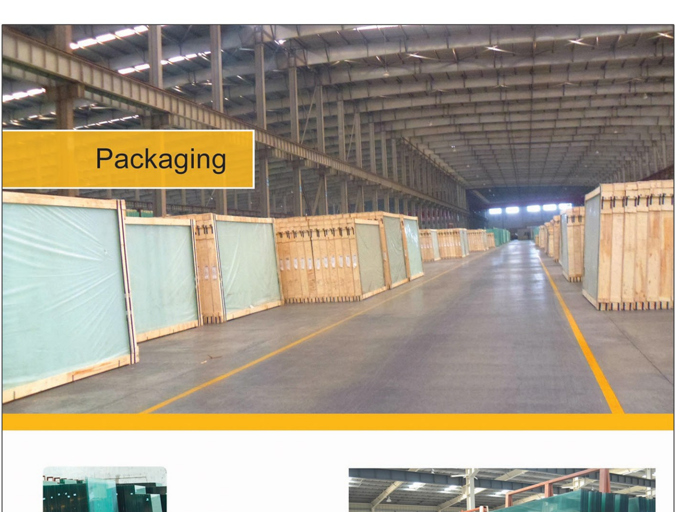
Technical Lab

Tariq Float Glass has the latest lab equipment for testing and evaluating the strength and quality of float glass. We keep the standard parameters of our glass & ensure best quality. Laboratory tests are conducted to investigate the dynamic material properties of annealed float glass, which is widely used in building applications.



Packaging



Our packaging system is as per international standards that protect float glass from damage and simplifies transport, handling and warehousing.
